"We are very pleased that we will be able to perform our first scheduled voyage so quickly after opening our new office in Denmark.

In these extraordinary times which we are currently facing, this is a huge achievement. We are not only very proud that we were able to make this happen on such short notice, but also very thankful to our loyal clients for entrusting us with their cargoes the same way they have been doing for years on our regular liner services.

This clearly shows that there is a need for this new service." says Harald Maas, Director of UAL Netherlands.

"We are very proud to have established the first Mediterranean sailing for UAL within our first month with the group. The feedback and support that we have received from our customers has been extraordinary and we look forward to service them on a regular basis. The planning of the next voyage is already process." says Directors Samir Ferguen and Morten Moeller, UAL Chartering
